

VS1680 Digital Recording Studio + PC interface £150

I am selling a Roland VS1680 16 Track digital recording studio plus a dedicated card, cable and software to connect with a PC computer. The VirDIS card dramatically expands the usefulness of the VS1680 recorder, ideal for back ups and/or communicating with other digital workstations. Both these items are in perfect working order and surplus to my needs now, hence I am bundling them for sale together at a price of £150 ONO.
